

WARATAH®

GRIPPLE® T-CLIP

WIRE TIE-OFF MADE EASY!

The Gripples T-Clip is the new way to tie-off wire around a strainer post and eliminates the need for knotting - saving you time and labour when building a fence.

Quick and easy to install, the Gripples T-Clip is faster than conventional methods.

Application

The Gripples T-Clip can be used at either end of the fence line to tie-off wire. It replaces the need to bend, twist, staple or knot wire around a strainer post.

Ideal for use on pre-fabricated fence and plain wire - recommended for use with round posts.

Wire Diameter	Pack Size	Suggested Applications
1.80 - 3.25mm products	Box 200 / Bag 20	All pre-fabricated wire (except netting) and plain wire.

WARATAH®
FIRST - BECAUSE IT LASTS.

Features & Benefits

- **Fast Installation**

- No need to twist, staple or knot wire.
- Saves time and labour costs.
- Quickly position and tighten T-Clip.

- **Stainless steel spring**

- Better corrosion resistance.

- **Patented ceramic roller technology**

- Delivers better wire grip over higher loads.

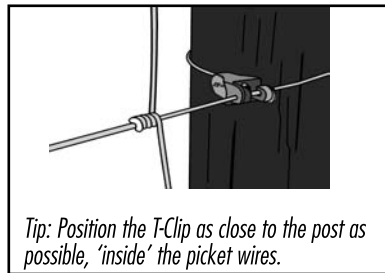

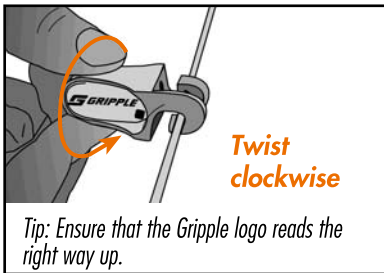

- **Reinforced hooks**

- Strength where it's needed.

- **Simple mechanism**

- No specialist tools or skills needed.

Before you start!

INSTALLATION

- Wrap the wire around the strainer post and twist the T-Clip onto the line wire.

- Push the line wire into the hole in the T-Clip and pull through.

- Pull tight against the post and bend the wire under the T-Clip. Cut off excess wire to suit.

- Repeat these steps on all line wires and tie-off is complete.

TOOLS AND ACCESSORIES

These tools & accessories will help with installing your fence:

- Wedgelock® clamp - pre-fabricated straining tool.
- Wizard® strainers - wire straining tool.
- Star® post clips - to attach wire to GalStar® posts.
